SIR:

ATTN: OFFICIAL DRAFTSPERSON

TRANSMITTAL OF FORMAL DRAWINGS

In response to the Notice of Allowability mailed 12/14/2006, applicant submits herewith for approval nine (9) sheets of formal drawings to be substituted for the previously filed 8 sheets of record. Former sheet 6/8 (now numbered 6/9, Fig. 10) has

been revised, and new sheet 9/9 (Figure 14) has been added as explained below.

The applicant filed an Amendment and Request for Approval to Make Drawing Changes on November 5, 2006, in response to the Examiner's requirement for same as stated in the Office Action mailed June 6, 2006. Specifically, the Action noted that the "smooth flexible tube" of claims 1 and 3 was not shown in the drawings then of record. New drawing sheet 9/9, Figure 14, was added in response, and approval was requested in the November 5, 2006 submission.

Further, the Applicant submitted an earlier Request for Approval To Make Drawing Changes on March 10, 2006, in which element number 10a (gear pump) was added to Figure 10, as required by the Examiner in the Office Action mailed November 10, 2005.

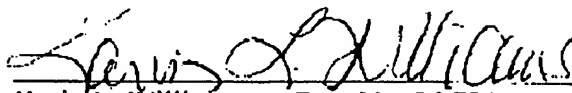

Although the Notice of Allowance does not mention the drawings, it is assumed that the above-noted Requests for Approval to Make Drawing Changes have been accepted by the Examiner, by virtue of the mailing of the Notice of Allowance.

Although not specifically required by the Notice of Allowability, Applicant submits the enclosed formal drawings in order to satisfy the ordinary requirements of 37 CFR 1.84. No changes have been made to the drawings other than those required by the Examiner as noted above, which necessitated renumbering of all of the original drawing sheets 1-8; sheets originally numbered 1/8 – 5/8 and 7/8 - 8/8 are otherwise unchanged.

Serial No.: 10/763,542

Reconsideration and entry of these formal drawings is respectfully requested.

Respectfully submitted:
